AT&T Government Solutions is critically focused on delivering telecommunications and converged IT solutions to federal agencies. We have invested millions in creating an advanced government-specific OSS infrastructure, along with the AT&T MPLS-based global network that provides built-in security, scalability, and performance. With 3,000 dedicated professionals in the Washington, D.C. area, coupled with the innovative minds of AT&T Labs, no one is more experienced at deploying and managing complex network communications solutions for government. With 85% of our total staff having government-sponsored accesses and clearances, we're ready to deliver your world. **To learn more, go to [att.com/gov/NETWORX](http://att.com/gov/NETWORX)**

The new  **at&t**  
Your world. Delivered.™

# The AT&T Networkx Team

Northrop Grumman | EDS | Cingular\* | SRA | GTSI | Global Crossing | Bechtel
