

AT&T Wi-Fi Services: When it's time to call in a specialist.

AT&T Wi-Fi Services is dedicated to providing end-to-end connectivity resources for customers in the healthcare industry.

We're using the strength of our global organization to benefit your facility, your physicians, and your patients and their families.

Innovation through applications.

We keep patients, physicians and staff connected to the Internet and enable private-side applications—such as voice and data applications, EMR, and kiosks, etc.

Efficiency through convergence.

We merge public and private applications onto a single platform, making your network cost effective and simple to manage.

Superior customer service to your patients, physicians and staff.

AT&T has the expertise to deliver a superior customer experience with an easy connection process and convenient public kiosks for your patients and their families. Additionally, with our call center and network operations center available around the clock, we are ready to support questions while ensuring your network is monitored closely 24x7.
