■ [REDACTED]

A series of horizontal black bars of varying lengths, representing a data visualization or a list of items. The bars are arranged in a single column, with some being significantly longer than others, creating a stepped effect. There are 20 bars in total, with lengths ranging from approximately 10% to 100% of the container width.

[illegible]

A horizontal bar chart consisting of 20 black bars of varying lengths. The bars are arranged in three distinct groups. The first group contains 10 bars, the second group contains 5 bars, and the third group contains 5 bars. The lengths of the bars vary significantly, with some being very short and others being nearly full-width.

A horizontal bar chart with 20 bars of varying lengths, all colored black. The bars are arranged in four groups of five, separated by small gaps. The lengths of the bars vary significantly, with some being very long and others very short. The bars are arranged in a descending order of length within each group, but the overall lengths across groups are not strictly ordered. The longest bar is in the third group, and the shortest bar is in the fourth group.

[illegible]

A series of horizontal bars of varying lengths, some solid black and some with vertical line patterns, representing data points. The bars are arranged in a vertical stack, with some having a distinct pattern of vertical lines. The lengths of the bars vary significantly, with some being very long and others being very short. The bars are arranged in a vertical stack, with some having a distinct pattern of vertical lines. The lengths of the bars vary significantly, with some being very long and others being very short. The bars are arranged in a vertical stack, with some having a distinct pattern of vertical lines. The lengths of the bars vary significantly, with some being very long and others being very short.

[REDACTED]

[REDACTED]

A horizontal bar chart consisting of 15 black bars of varying lengths. The bars are arranged vertically, with the longest bar in the center and the shortest bars at the top and bottom. The lengths of the bars vary significantly, with some being nearly full-width and others being much shorter. The bars are all solid black and have no labels or titles.

████████████████████

A series of 20 horizontal black bars of varying lengths, representing a list of redacted items. The bars are arranged in a single column, with some being longer than others, suggesting a list of items of different lengths or importance. The bars are solid black and have no text or other markings on them.

[illegible]

[illegible]

Within 48 hours of Hurricane Katrina's landfall in New Orleans and the Gulf Coast, telecommunications contractors were on the ground, assessing damage to government facilities and identifying affected services. AT&T Government Solutions had more than 250 priority orders -- a huge number -- from government clients and first responders for circuit orders, said Lou Addeo, president of AT&T's government unit. The company also dispatched emergency communications vehicles to Louisiana and Mississippi for use by the state police, National Guard and for the airport and bus terminals in New Orleans, Addeo said. "Before the hurricane, we had these emergency vehicles located in the South ready to go," he said. "We put our assets where they need to go in times like this."

[REDACTED]

A series of horizontal black bars of varying lengths, representing redacted text. The bars are arranged in a list-like fashion, with some bars being longer than others, suggesting different levels of redaction or different types of information being withheld. The bars are solid black and have no text or other markings on them.
