### ***Product Description:***

The information contained within this Voluntary Product Accessibility Template (VPAT) is the result of a third-party, Level Access, performing an audit. The audit tested the compliance of the AT&T's Government Platform (via the Business Center Portal), and Business Support Systems (BSS) applications in AT&T's Government Center-EIS. The Government Center Portal and applications were assessed against the applicable requirements of Section 508 of the Rehabilitation Act of 1973 as Amended 1998. AT&T reported that the modules assessed in the audit represent the full features available in the Government Center-EIS application for Unified Communications Service users.

The Unified Communications Service is also delivered using the Cisco Unified Communications platform. The Unified Communications Platform's accessibility features are completely determined by the provider and documented in Cisco's Product VPATs.

### ***Notes:***

### ***Evaluation Methods Used:***

The testing methodology performed included manual testing techniques such as keyboard-only testing, color contrast evaluation, and testing using the high contrast setting for users who have low vision. It also included assistive technology testing with ZoomText, a screen magnification software for people with low vision; Dragon NaturallySpeaking (Dragon), a voice recognition/speech to text software for users with limited mobility; and JAWS which is a screen reading software used by people who are visually impaired.

### ***Applicable Standards/Guidelines***

This report covers the degree of conformance for the following accessibility standard/guidelines:

## Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can be used only in WCAG 2.0 Level AAA.

## WCAG 2.0 Report

Tables 1 and 2 also document conformance with:

- Chapter 5 – 501.1 Scope, 504.2 Content Creation or Editing
- Chapter 6 – 602.3 Electronic Support Documentation

Note: When reporting on conformance with the WCAG 2.0 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

### **Revised Section 508 Report**

Notes:

### Chapter 3: Functional Performance Criteria (FPC)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Supports	The AT&T Government Center-EIS provides at least one mode of operation that does not require vision.
	Refer to External Vendor VPAT links	Support for this provision is also determined by the provider and documented in the Cisco Unified Communications VPATs available at this <a href="#">URL</a> .

Criteria	Conformance Level	Remarks and Explanations
302.2 With Limited Vision	Supports	The AT&T Government Center-EIS application responds to the accessibility features available to end users such as screen magnification, high contrast display and browser zoom. The application is usable by people with limited vision.
	Refer to External Vendor VPAT links	Support for this provision is also determined by the provider and documented in the Cisco Unified Communications VPATs available at this <a href="#">URL</a> .
302.3 Without Perception of Color	Supports	The AT&T Government Center-EIS does not include any content or control which relies on the user's ability to perceive color.
	Refer to External Vendor VPAT links	Support for this provision is also determined by the provider and documented in the Cisco Unified Communications VPATs available at this <a href="#">URL</a> .
302.4 Without Hearing	Supports	The AT&T Government Center-EIS does not include any content or control which relies on the user's ability to hear.
	Refer to External Vendor VPAT links	Support for this provision is also determined by the provider and documented in the Cisco Unified Communications VPATs available at this <a href="#">URL</a> .
302.5 With Limited Hearing	Supports	The AT&T Government Center-EIS does not include any content or control which relies on the user's ability to hear.
	Refer to External Vendor VPAT links	Support for this provision is also determined by the provider and documented in the Cisco Unified Communications VPATs available at this <a href="#">URL</a> .
302.6 Without Speech	Supports	The AT&T Government Center-EIS does not include any content or control which relies on the user's ability to speak.
	Refer to External Vendor VPAT links	Support for this provision is also determined by the provider and documented in the Cisco Unified Communications VPATs available at this <a href="#">URL</a> .

Criteria	Conformance Level	Remarks and Explanations
302.7 With Limited Manipulation	Supports	The AT&T Government Center-EIS is operable with limited reach and limited strength.
	Refer to External Vendor VPAT links	Support for this provision is also determined by the provider and documented in the Cisco Unified Communications VPATs available at this <a href="#">URL</a> .
302.8 With Limited Reach and Strength	Supports	The AT&T Government Center-EIS does not require simultaneous manual operation or fine motor control.
